Trains will stop as follows:

At Nevada Dock, Trains Nos. 41, 45 and 47 on signal.
At Widbero, all passenger trains on signal.
★ Train No. 9 will stop at Byron on Monday and on morning immediately following any holiday.
† Train No. 81 will stop at Martinez on signal to let off passengers.

All trains must get orders or clearance cards before leaving Tracy.
All west-bound trains have absolute right of track over all east-bound trains of the same or inferior class. See Rule 384.

As Trains Nos. 25, 81 and 83 will not stop at Avon, Conductor will register by leaving a card, and Telegrapher at this place will be out to receive the card and note it on the register.

*Train No. 297 may carry passengers. † No. 37 will stop on signal at Farwell, daily except Sunday.

All trains must get orders or clearance cards before leaving Tracy or Lathrop.

FOOT-NOTE.—Train No. 85 will take siding at Niles for No. 32.

FOOT-NOTE.—Train No. 37 will wait at Sunol until 5.43 p.m. for No. 38.

FOOT-NOTE.—Train No. 278 has right of track over Train No. 277.

All west-bound trains have absolute right of track over all east-bound trains of the same or inferior class. See Rule 384.

Trains will stop as follows:

At Merienda, Nos. 31, 85 and 87 on signal.
At Mayborg, Nos. 31, 85 and 87 on signal.
At Brightside, Nos. 31, 85 and 87 on signal.
At Verona, Nos. 31, 37, 85 and 87 on signal.
At Bonita, Nos. 85 and 87 on signal.
At San Joaquin Bridge, Nos. 31, 37, 49, 141 and 121 on signal.

WESTERN DIVISION: Lodi, Ione and Sacramento.

Train No. 162 has right of track over train No. 163.

Trains Nos. 164 and 312 have right of track over train No. 161.

All west-bound trains have absolute right of track over all east-bound trains of the same or inferior class. See Rule 384.

SPECIAL RULES.

Standard clocks are located at Oakland Pier, West Oakland (telegraph office), Tracy, Mendota, Stockton, Lodi, Galt, Berenda, South Vallejo, Suisun and Elmira.

OAKLAND.

The following signals in the Oakland Interlocking System are assigned to special routes as noted. All other signals in the system govern tracks in accordance with Standard Rules. (See page 84.)

The two signal bridges east of Oakland Pier depot will be known as Bridge No. 1 and No. 2. Bridge No. 1 is west of Tower No. 1 and Bridge No. 2 is east of it. The signal post on the bridges are placed over the right-hand rail of the track upon which trains approach.

All trains starting out of Oakland Pier will be governed by dwarf signal placed on right-hand side of track upon which train stands, which signal will be good only to Signal Bridge No. 1, from which point trains will get signal good only to Bridge No. 2, as follows:

Post over track No. 1 carries signals 35 and 37.
  Signal 35 into track No. 2.
  Signal No. 37 across tracks 2 and 3 into track 4.

Post over track No. 2 carries signals 39 and 41.
  Signal 39 out track 2.
  Signal 41 across track 3 and into track 4.

Post over track No. 3 carries signals 43 and 45.
  Signal 43 out track 3.
  Signal 45 into track 4.

Post over track No. 4 carries signals 47 and 49.
  Signal 47 out track 4.
  Short arm switching signal 49 to tracks 3 or 2.

East-bound Signal Bridge No. 2 as below:

Post over track No. 1 carries signal No. 51.
  Short arm switching signal 51 out track 1 or across tracks 2 and 3 and into track 4.

Post over track No. 2 carries signals 53 and 55.
  Signal 53 out track 2.
  Short arm switching signal 55 into track 1.

Post over track No. 3 carries signals 57 and 59.
  Signal 57 into track 2.
  Short arm switching signal 59 into track 1.

Post over track No. 4 carries signals 61 and 63.
  Signal 61 out on track 4.
  Signal 63 across track 3 and out on track 2.

Trains coming from Oakland Wharf trestle will be governed by signals Nos. 65 and 67 on signal pole.
  Signal 65 across tracks 1, 2, 3 and 4 into shop trestle.
  Short arm switching signal 67 into track 1.

West-bound trains coming into Oakland Pier on tracks 1 and 3 will be governed by signals on 4-arm bracket pole just east of wharf cross-over. These signals are good only to bridge No. 2 and enginemen will, under no circumstances, run by them when at danger without first getting a hand signal from some one in authority on the ground close enough to them to be certain of no misunderstanding.

Right-hand post carries signals 30 and 32.
  Signal 30 in on track 1.
  Signal 32 in on tracks 2, 3 or 4.

Left-hand post carries signals 34 and 36.
  Signal 34 in on track 3.
  Signal 36 in on track 4, or into Long Wharf track, or into and west on track 1, or into track 1 and across into track 2.

West-bound signals on Bridge No. 2 are good only to Bridge No. 1, as below:

Post over track No. 1 carries signal 18.
  Signal 18 in on track 1.

Post over track No. 2 carries signal 20.
  Signal 20 in on track 2.

Post over track No. 3 carries signals 22 and 24.
  Signal 22 in on track 3.
  Signal 24 in on track 2 or 1.

Post over track No. 4 carries signals 26 and 28.
  Signal 26 in on track 4.
  Short arm switching signal 28 in on tracks 3, 2 or 1.

West-bound signals on Bridge No. 1, as below:

Post over track No. 1 carries signal 8.
  Signal 8 in on tracks 1, 2, 3, 4 or 5.

Post over track No. 2 carries signal 10.
  Signal 10 in on tracks 6, 7 or 8.

Post over track No. 3 carries signal 12.
  Signal 12 in on tracks 9, 10, 11 or 12.

Post over track No. 4 carries signals 14 and 16.
  Signal 14 in on tracks 13, 14, 15 or 16.
  Short arm switching signal 16 in on storage tracks.

Trains coming from shop trestle will be governed by dwarf signals Nos. 38 and 40, as below:

  Signal 38 across tracks 4, 3, 2 and 1 and in on wharf trestle.
  Signal 40 across tracks 4, 3 and 2 and in on track 1, or in on track 4.

When signals are inoperative and hand signals are used to move trains over tracks controlled by interlocking system no such signal should be given or obeyed unless green flag or green lantern is used.

SAN FRANCISCO AND PORT COSTA.

Between Oakland (16th Street) and Port Costa the Manual Block System is in operation. Conductors and enginemen will provide themselves with copies of Block Signal Rules and will govern themselves accordingly within the above-named limits.

Block Signal Rules provide that block signals do not affect the rights of trains under the time-table or train rules, nor dispense with the use or observance of other signals whenever they may be required.

Trainmen must not depend upon the Block System to protect their trains, but wherever necessary must see that the train is protected by flag, as per Rule 399.

The limits of Oakland Yard will extend from Alice Street, on Niles Line, through West Oakland Yard to Oakland Wharf and to 16th Street Station on Port Costa Line.

Approaching any switches within the limits of Oakland Yard, trains of this line will, when necessary, give one long blast of the whistle, thus, ——————, as a signal to the switchman.

Trains or engines going to West Oakland, through the freight track in Cedar Street, will be careful not to delay or block local or main line passenger trains; and when approaching 16th Street station, if ready to go through without stopping, will give four short blasts of the whistle, thus, — — — —

The freight track in Cedar Street, between West Oakland and 16th Street stations, is controlled by signals from Towers 2 and 4 of the Block System. Trains for West Oakland, arriving at 16th Street, may leave that station regardless of their schedule time, or of opposing trains, provided they get proper signals giving them a clear track; and trains may leave West Oakland regardless of arrival of opposing trains, provided they get proper signal giving them a clear track. When the signals will not work and hand signals are necessarily given, trains must be run in accordance with time and rights of Time Table.

Trains must use caution in passing a train receiving or discharging passengers at a station and must not pass between it and the platform at which the passengers are being received or discharged.

West-bound main-line trains coming into 16th Street must not pass the Berkeley local train when west of the east switch of the passing track, nor must enter the station at 16th Street while the Berkeley train is there.

Trains must not run faster than 10 miles per hour in crossing University Avenue and Delaware Street, at West Berkeley station.

By ordinance, the rate of speed of engines or cars passing over, along or upon any of the public streets or highways in the city of Oakland is limited to twenty-two miles an hour. It will therefore be necessary to slow down to that speed between the Northern Switch and the west end of the fill near Dalton's Foundry, on Cedar Street; also when running through Cedar Street, between Dalton's Foundry and Atlantic Street.

Between 16th Street, Oakland, and Port Costa, trains will run on right-hand track. The switches at 16th Street will be controlled by towermen, and trains and engines will be governed by their signals.

At Port Costa the double-track switch will stand for the right-hand track, and east-bound trains will open and close it. The target and switch light will stand clear for right-hand track going onto double track, and red when going off of the double track onto the single track.

The limits of Port Costa Yard will extend from the sign board near Eckleys to the sign board east of Nevada Dock. Within these limits *all* trains must run with great care, expecting to find main track occupied. Passenger trains *must* reduce speed going around obscure curves. *Regular trains*, when *twenty* minutes or more *late*, and *all irregular trains and engines*, will *lookout for themselves* against yard engines, which will be allowed to use the track. Regular trains will lose time if necessary to carry out this rule. All trains and engines will be governed by the flags shown from flag houses in this yard. Switches on long siding, which extends from Vallejo Junction to the boat tracks at Port Costa, must always be left closed on the siding, as this track is for special use of yard engines.

PORT COSTA AND SACRAMENTO.

The limits of Benicia Yard will extend to and include Mail Dock Switch.

West-bound trains will take the siding at Benicia when they arrive there to meet a train of the same class that will come off the boat.

The limits of Sacramento Yard will extend to and include Washington Spur. Within the limits of the Yard all trains must be handled with care and kept under control, and the bell must be rung constantly.

Under no circumstances must the speed of any train exceed six miles per hour over Sacramento River Bridge. This applies to the whole length of the train.

TRACY AND MENDOTA.

The junction switches at Tracy, after being used, must be set for the main track Port Costa and Mendota lines.

SPECIAL RULES—Continued.

STOCKTON, MILTON AND MERCED.

Speed of trains must be reduced to fifteen (15) miles per hour when passing over bridges at Merced River (near Arundel) and Tuolumne River (near Waterford). This applies to the whole length of the train.

LATHROP AND MERCED.

The junction switches at Lathrop, after being used, must be set for the main track Niles and Lodi line.

Speed of trains within the limits of Modesto and Merced should be reduced to fifteen (15) miles per hour.

MERCED, RAYMOND AND FRESNO.

By Ordinance, the rate of speed of engines or trains is limited to eight (8) miles per hour while running in the city limits of Fresno; also, no crossing may be blocked longer than five (5) minutes at a time.

PORT COSTA, SAN RAMON AND TRACY.

The junction switches at Tracy, after being used, must be set for the main track Port Costa and Mendota lines.

At Port Costa the double-track switch will stand for the right-hand track, and east-bound trains will open and close it. The target and switch light will stand clear for right-hand track going onto double track, and red when going off of the double track onto the single track.

The limits of Port Costa Yard will extend from the sign board near Eckleys to the sign board east of Nevada Dock. Within these limits *all* trains must run with great care, expecting to find main track occupied. Passenger trains *must* reduce speed going around obscure curves. *Regular trains*, when *twenty* minutes or more *late*, and *all irregular trains and engines*, will *lookout for themselves* against yard engines, which will be allowed to use the track. Regular trains will lose time if necessary to carry out this rule. All trains and engines will be governed by the flags shown from flag houses in this yard. Switches on long siding, which extends from Vallejo Junction to the boat tracks at Port Costa, must always be left closed on the siding, as this track is for special use of yard engines.

The speed of trains within the limits of Martinez, as designated by standard boards, must not exceed eight (8) miles per hour.

SAN FRANCISCO AND SAN JOSE.

The limits of Oakland yard will extend from Alice Street, on Niles Line, through West Oakland Yard to Oakland Wharf and to 16th St. Station on Port Costa Line.

Trainmen must not depend upon the Block System to protect their trains, but wherever necessary must see that the train is protected by flag as per Rule 399.

Approaching any switches within the limits of Oakland Yard, trains of this line will, when necessary, give two long blasts of the whistle, thus, —— ——, as a signal to the switchman.

Double-track switch at East Oakland will stand for right-hand track coming onto the double track and it will have to be opened and closed for east-bound trains. The target and switch light will stand clear for west-bound trains coming onto double track, and red for east-bound trains when going off double track onto single track. In crossing trestle between East Oakland and First Street trains arriving at either end of trestle will proceed when signal stands at clear. Should signal be at danger west-bound trains will wait three minutes and east-bound will wait five minutes and then proceed as per Rule 706. East-bound trains must not exceed 12 miles per hour while passing through the turnout curves at each end of the gauntletted track.

All trains or engines will approach the local crossing switches at Fruitvale with great care, and know the way is clear before passing over. They will be held responsible if they strike anything on the crossing.

Between Oakland Pier and Fruitvale stations, if a local train is about to come to a stop or has done so at *any* station, the speed of main-line trains must be reduced in passing such station, so that there will be no danger of hurting any passenger from the local train; come to a full stop if necessary.

All trains or engines must reduce rate of speed to six (6) miles per hour while running within the city limits of San Jose, and exercise special care when approaching crossing of Coast Division freight track at Second Street.

By ordinance, the rate of speed of engines or cars passing over, along or upon any of the public streets or highways in the city of Oakland is limited to twenty-two miles an hour. It will therefore be necessary to slow down to that speed when crossing Peralta Street, when running between Market and Alice Streets on First Street, and in going over the crossing at the water tank at East Oakland; also when crossing Park Avenue at Twenty-third Avenue local station, the speed must be reduced to eight (8) miles an hour.

By ordinance, trains are prohibited from meeting between a point 100 feet west of the westerly line of Washington Street and 100 feet east of the easterly line of Broadway Street, Oakland. If, on account of fog, it should be found that two trains have entered these limits, or if, on account of accident, it should be necessary to get one train by another within these limits, the higher-classed train, or the west-bound train of the same class, shall have the preference, and the other must be brought to a stand until its engine has been passed by the rear end of the opposing train.

NILES AND LODI.

Between the slow boards designating the limits of the city of Stockton, the speed of trains must not exceed eight (8) miles per hour; and irregular trains and engines and trains behind time will keep sharp lookout, and run with care, expecting to find main track occupied.

Interlocking signals have been placed to govern the crossing at Sacramento and Taylor Streets in Stockton, of the tracks of the San Francisco & San Joaquin Valley Ry. and this company. Trainmen and enginemen must carefully observe the position of the signals and be governed accordingly.

The junction switches at Tracy, after being used, must be set for the main track Port Costa and Mendota lines.

The junction switches at Lathrop, after being used, must be set for the main track Niles and Lodi line.

LODI, IONE AND SACRAMENTO.

The limits of Sacramento yard will extend to and include switch at Homestead station. Within the limits of the yard all trains must be handled with care and kept under control, and the bell must be rung constantly.

SOUTH VALLEJO, SUISUN AND CALISTOGA.

The junction switches at Napa Junction, after being used, must be set for the main track Napa Branch.

By ordinance, it has been made unlawful for an engine, whether alone or attached to a car or cars, to run, be drawn or propelled on any track within the corporate limits of the city of Napa at a rate of speed greater than six (6) miles per hour, or to move an engine at any speed within the corporate limits of the city unless the bell on said engine be kept ringing the whole time said engine is in motion. You will, therefore, be governed accordingly.

By ordinance, it is required that the speed of trains and engines be reduced to twelve (12) miles an hour between Charter Oak Avenue and Fulton Lane in the town of St. Helena.

NAPA JUNCTION AND SANTA ROSA.

The junction switches at Napa Junction, after being used, must be set for the main track Napa Branch.

ELMIRA AND RUMSEY.

All trains and engines on Clear Lake Branch, running from San Francisco must come to a full stop at the stop board between Wolfskill and Winters, and cross Putah Creek Bridge at a speed not exceeding six (6) miles per hour. This bridge is also used for a public highway.

Trains must not exceed ten (10) miles per hour while running in the main street in Capay.

Semaphore signals, interlocked with the drawbridges at such points, having been put up at San Joaquin River between Minard and Lathrop, Pacheco Slough at Avon and Cordelia Slough at Oluta, trains approaching these drawbridges from either direction and finding the semaphores at "clear," may pass over the drawbridges without coming to a full stop, speed, however, to be reduced so as not to exceed fifteen miles per hour. If signals are found at dan[illegible] trains must be brought to a full stop, and crew be governed by Rule 706.

"Referring to Rule 710 concerning distant signals on page 79 in book of Rules and Regulations: Distant signals are also used for indicating position of obscure switches. When a distant switch signal stands at 'Caution,' it indicates that switch in advance of it is open, and that trains must be brought to a stop before reaching the open switch. When it stands at 'Safety,' it indicates that switch in advance of it is closed, and that trains may proceed."

In addition to junctions and terminals, 16th Street and First Street (Oakland), Livermore, Lodi, Montpellier, Los Banos, Martinez, Benicia and Napa will be registering stations.

Enginemen, before leaving any registering station, will require from the Conductor a check on proper blank showing the numbers of all *ruling* trains, if any, together with time of arrival or of departure, and must assure themselves that no train affecting their rights is omitted therefrom.

Passenger trains must not be run from the instant of their departure from any station to the instant of their arrival at the next station in less time than given in the column headed "*Minimum running time between Stations for passenger trains.*"

Freight trains must not be run from instant of departure from any station to instant of their arrival at the next station in less time than given in the column headed "*Minimum running time between Stations for freight trains.*"
